SECURITY AND AUTOMATION PANEL

TAKING SECURITY INNOVATION TO THE EDGE

The 2GIG EDGE™ panel sets a new benchmark in form and function with its sleek design that is thinner and more powerful than ever. Our on the edge processing technology is the difference that enables touchless disarm and the industry-first home security system with built-in face recognition and analytics within the panel itself – so private data stays private for greater peace of mind.

Our cutting-edge enhancements include double the viewing area, higher resolution, two speakers and dual microphones, delivering superb audio quality and 2-way voice communication. With smart home capabilities, the 2GIG EDGE panel is your competitive advantage in selling the evolution of security and automation.

Customer Testimonials:

“Want to feel more secure at home even when you’re away – these people can make it happen. Great customer service and support.” – **Donald**

“Brinks Home Security did everything as requested. It’s all perfect. I’d buy it again and I’d recommend them to anybody who wants to know about them.” – **Bruce**

“There are unique people in the world that need to be recognized for their outstanding, above and beyond assistance. I call my amazing account representative “The Lifesaver”. She was able to look at my detailed situation and was proactive to assist the several challenges that were occurring with my family and I. She was pleasant, compassionate, and super flexible to evaluate all of our options. I cannot thank her enough as I told her, she is a lifesaver!” – **Christopher**
